## Description

We are looking for a motivated & experienced PHP developer who's experienced working on the CodeIgnitor and Laravel frameworks to join our agile team of professionals.

If you are passionate about technology, constantly seeking to learn and improve your skill-set in web engineering, then you are the type of person we are looking for!

## Responsibilities

- Developing ideas for new programs, products, or features by monitoring industry developments and trends.
- Strong understanding of the web development cycle and programming techniques and tools.
- Maintain quality and ensure responsiveness of web applications
- Collaborate with team members to develop and launch new features and applications
- Ability to work independently and learn quickly as well as work collaboratively within a team environment.
- Ensure that the application meets performance standards for stability and resource utilization.

## Qualifications

- Strong knowledge of PHP frameworks ( Laravel, Codeigniter) Experience in HTML, CSS.
- Working knowledge of Restful APIs and web services can integrate Third-party APIs.
- Payment Merchant Integration ( PayPal, Stripe, EasyPay, JazzCash, Bank Alfalah, etc).
- Strong knowledge of JavaScript, JQuery, and AJAX.
- Good concepts of database (MySQL, MongoDB, NoSQL, etc)
- Write clean, well-designed, and well-documented code.
- Troubleshoot and test core product software to ensure strong optimization.
- Contribute to all phases of the development lifecycle
- Understanding of object-oriented PHP programming.
